

Drug and Alcohol Testing - Transportation Personnel

In a continuing effort to prevent accidents and injuries resulting from the use of drugs and misuse of alcohol by drivers of commercial motor vehicles, the district shall establish a drug and alcohol misuse prevention program. The district or its transportation provider shall have an in-house drug and alcohol testing program or be a member of a consortium that provides testing that meets the federal regulations, and shall annually certify this information to the Oregon Department of Education.

The district's program shall meet the requirements of the Omnibus Transportation Employee Testing Act of 1991.

The superintendent will develop administrative regulations as needed to implement the district's program including such provisions for preemployment, reasonable suspicion, random, post-accident, return-to-duty and follow-up testing as may be necessary. The regulations will include training, education and other assistance to employees to promote a drug- and alcohol-free environment.
